### How to use this syllabus (Required)

This syllabus provides you with information specific to this course, and it also provides information about important university policies. This document should be viewed as a course overview; it is not a contract and is subject to change as the semester evolves. *(Indicate if any changes will be made and how they will be communicated to the student.)*

### Academic Honesty (Required)

Students are responsible for knowing and following the Student Code of Conduct [http://webs.wichita.edu/inaudit/ch8\\_05.htm](http://webs.wichita.edu/inaudit/ch8_05.htm) and the Student Academic Honesty policy [http://webs.wichita.edu/inaudit/ch2\\_17.htm](http://webs.wichita.edu/inaudit/ch2_17.htm).

*[If your department or college has a policy on academic honesty, insert a link here. Also, be sure to specify which penalties you will pursue under the above policies when you discover cases of academic dishonesty.]*

### Course Description (Required)

*(Insert catalog description. If further information is desired, include after the catalog description.)*

### Definition of a Credit Hour (Required)

*Example for 3 credit hour class:* Success in this 3 credit hour course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction and preparation/studying or course related activities for a total of 135 hours.

*Go to:* <http://webs.wichita.edu/?u=academicaffairs&p=/definitionandassignmentofcredithours/> for the policy and examples for different types of courses and credit hour offerings.

### Measurable Student Learning Outcomes (Required)

*When writing learning outcomes, focus on student behavior and use simple, specific action verbs to describe what students are expected to demonstrate. In addition to indicating what learners will know and be able to do upon the successful completion of a course, well-crafted learning outcomes are also the touchstones guiding the rest of the course development process. The choice of course materials, assignments or activities, and assessments should all reflect the learning objectives. **Measurable learning outcomes are required in all types of courses, i.e., traditional classroom, online, labs, directed study, independent study, special topics, thesis, dissertation, etc.***

*Example:* Upon successful completion of this course, students will be able to:

- *Apply principles of evidence-based medicine to determine clinical diagnoses.*

- *Articulate cultural and socioeconomic differences among different populations.*
- *Use technology effectively in the delivery of instruction, assessment, and professional development.*
- *Critically evaluate research articles.*

<b>Sample Action Verbs:</b> Concrete verbs such as “define,” “apply,” or “analyze” are the expectation for assessment purposes, not verbs such as “be exposed to,” “understand,” “know,” “be familiar with.”	
<b>Cognitive Learning</b>	<b>Action Verbs:</b>
<b>Knowledge</b> - to recall or remember facts without necessarily understanding them	arrange, define, duplicate, label list, memorize, name, order, recognize, relate, recall, reproduce, list, tell, describe, identify, show, label, collect, examine, tabulate, quote
<b>Comprehension</b> – to understand and interpret learned information	classify, describe, discuss, explain, express, interpret, contrast, predict, associate, distinguish, estimate, differentiate, discuss, extend, translate, review, restate, locate, recognize, report
<b>Application</b> – to put ideas and concepts to work in solving problems	apply, choose, demonstrate, dramatize, employ, illustrate, interpret, operate, practice, schedule, sketch, solve, use, calculate, complete, show, examine, modify, relate, change, experiment, discover
<b>Analysis</b> – to break information into its components to see interrelationships and ideas	analyze, appraise, calculate, categorize, compare, contrast, criticize, differentiate, discriminate, distinguish, examine, experiment, question, test, separate, order, connect, classify, arrange, divide, infer
<b>Synthesis</b> – to use creativity to compose and design something original	arrange, assemble, collect, compose, construct, create, design, develop, formulate, manage, organize, plan, prepare, propose, set up, rewrite, integrate, create, design, generalize
<b>Evaluation</b> – to judge the value of information based on established criteria	appraise, argue, assess, attach, defend, judge, predict, rate, support, evaluate, recommend, convince, judge, conclude, compare, summarize
<b>Affective Learning</b>	appreciate, accept, attempt, challenge, defend, dispute, join, judge, praise, question, share, support
<b>Psychomotor Learning</b>	bend, grasp, handle, operate, reach, relax, shorten, stretch, differentiate (by touch), express (facially), perform (skillfully)

**Note:** Typically, undergraduate learning outcomes are of the “knowledge,” “comprehension,” and “application” type and graduate learning outcomes are of the “analysis,” “synthesis,” and “evaluation,” type. If a course is at the 500 or 600 level, there must be two sets of learning outcomes, one at the undergraduate and the other at the graduate level.

### Grading Scale (Required)

WSU uses a +/- grading scale for final grades and to calculate grade point averages. In this class, grades are assigned according to the following chart. (Note: the chart on the next page is a sample that may be used). (Other classes might assign grades differently: Be sure to understand the different grading scales in all of your classes.)

Points/percentages, as instructor chooses	Letter grade	Grade Points	Interpretation
	A	4.00	<i>The A range denotes excellent performance.</i>

	B+	3.30	
	B	3.00	<i>The B range denotes good performance.</i>
	B-	2.70	
	C+	2.30	
	C	2.00	<i>The C range denotes satisfactory performance.</i>
	C-	1.70	
	D+	1.30	
	D	1.00	<i>The D range denotes unsatisfactory performance.</i>
	D-	0.70	
	F	0.00	<i>F denotes failing performance.</i>

### Assignments (Required)

(List of assignments, values toward final grades, dates due. If a course is at the 500 or 600 level, there must be a differentiation between undergraduate and graduate assignments matched to the learning outcomes.)

### Undergraduate vs. Graduate Credit (for 700 level courses) (Required)

Undergraduate students enrolled in 700 level courses will receive undergraduate credit (not graduate credit) unless they have a previously approved senior rule application or dual/accelerated enrollment form on file in the Graduate School. Undergraduate credit earned in 700 level courses cannot later be counted toward a graduate degree.
